GENERAL INFORMATION

Project acronym:	
Project title:	
Duration (months): <i>(the duration cannot exceed 12 months)</i>	
Intervention Strategy (Linea d'intervento):	
Track:	
Development Sector <i>(Ambito di Sviluppo):</i>	
Geographical Area of implementation of the Project	
Total project budget (€):	
Total grants requested (€):	
Project Coordinator:	<i>Name, Surname:</i> <i>e-mail address:</i> <i>Phone Number:</i>
Abstract (max 1.500 characters):	
Keywords:	

A. TECHNICAL-SCIENTIFIC QUALITY

PROJECT DESCRIPTION AND TIMETABLE OF ACTIVITIES

- Describe the object of the project, related activities, intended purposes to be reached, consistency with the call's priorities, elements of innovation and sustainability (max 8.000 characters).
- Timetable (Indicate the sequence of activities to be carried out starting from the granting of the loan, until reaching the completion of each activity).

WP	Month
WP 1 (description, max 600 characters)	
WP 2 (description, max 600 characters)	
WP N (description, max 600 characters)	

- Motivate the reasons that led to applying to this call (max 8.000 characters).
- Describe the context and the scopes of the project and how they meet the needs related to Spoke 9 according to the tracks and areas of development outlined in the call (max 8.000 characters).
- Describe the methodology and the expected project’s implementation procedures (max 16.000 characters).
- Elaborate on the consistency of the project with the objectives and purposes stated in the call (max 8.000 characters).
- Describe the scopes of the project, highlighting how they’ll provide a solution to the challenges identified by Spoke 9 and “CN RNA & Gene Therapy” as well as the research and innovation theme indicated by Spoke (max 8.000 characters).
- Describe the expected results (outputs, intermediate and final goals) and the proposed qualitative and quantitative indicators intended to monitor activities and for ex-post evaluation (max 8.000 characters).

B. PROPOSER'S CAPABILITIES AND EXPERIENCES

Given the topics of the research program, elaborate on previous experiences, scientific skills of each participant, as well as the group as a whole; highlight both the leading scientific activity carried in the last 10 years, as well as the ability to manage and carry complex / excellent projects included in the field of scientific research; (max 8.000 characters)

- Describe the composition of the working group and provide evidence of the coherence between research activities and skills of the team members (max 8.000 characters)

Name/Surname	Role	Gender	Months/person

C. ECONOMIC-FINANCIAL QUALITY

Economic and financial aspects of the project, evaluated in terms of the proposal's cost-effectiveness and financial sustainability.

Provide an overview of the project budget (Attachment B), addressing the distribution across various cost items, the economic impact on the territories of the involved regions, and the different types of planned activities (development, prototyping, validation, demonstration, innovation, etc.).

Provide a breakdown of expenses for each cost item, indicating the elected supplier, if applicable.

	Cost (€)	Supplier	Explanation and rationale for the allocation of funds towards project objectives
Costs for Specialized Consulting Services			
Costs for materials, supplies, and similar products			
Total			

D. INNOVATIVE ELEMENTS

HIGHLIGHT:

- How the project goes beyond the state of the art emphasizing its ambitious nature, innovative value, and advantages compared to currently accessible solutions, along with their inherent limitations. The elements of novelty of the project encompassing innovative solutions, methodologies, products/services, materials/components, or the application of existing solutions in novel contexts. (max 6.000 characters)
- Clarify the innovative impact at the local, national, or international levels. Articulate the originality of the project by positioning it on the spectrum from conceptualization to practical application or from laboratory development to market readiness, elucidating the maturity level of the proposed technical solutions. (max 6.000 characters)

E. EXPECTED OUTPUTS AND IMPACTS

- Specify the outputs aligned with the highlighted tracks and development areas in the Call, elucidating how they translate into benefits.
- Provide a description of the initial "Technology Readiness Level" (TRL) at the project commencement and outline the targeted TRL at the project's conclusion. Emphasize the degree of exploitation and the transferability of the achieved results. (max 8.000 characters).

WORK PACKAGES

Fill in the following tables with a detailed description of the planned activities withing each Work Package (WP). Where relevant, emphasize the digital component elements. Within the WP structure, it must be clear what the digital contribution is (for example, one can dedicate at least one WP to describe the project's digital component, rather than identifying tasks within the WPs that contribute to it). Highlight, if possible, the adopted methodologies to ensure compliance with Open Science and Fair Data Management principles

Work Package n. (es. 1)	Start Date: (es. M2)	End Date: (es. M9)
Work Package Title: <i>[Titolo]</i>		
Type: <i>[Basic Research/Industrial Research/Experimental Development]</i>		
Person-Months [Mesi/uomo]:		
Objectives: <i>List and briefly describe the objectives of the Work Package.</i>		
Task 1.1 – Title – Digital Component [Yes/No] <i>Activity Description</i>		
Task 1.2 – Title – Digital Component [Yes/No] <i>Activity Description</i>		
Describe Expected Living Costs and Associated Expenses for the WP, Including External Consultancy, Research Contracts, and Material Purchase		
Deliverables:		

D1.1	–	Description
Title		
D1.2	–	Description
Title		

Work Package n. (es. 2)	Start Date: (es. M2)	End Date: (es. M9)
Work Package Title: [Titolo]		
Type: [Basic Research/Industrial Research/Experimental Development]		
Person-Months [Mesi/uomo]:		
Objectives: <i>List and briefly describe the objectives of the Work Package.</i>		
Task 1.1 – Title – Digital Component [Yes/No] <i>Activity Description</i>		
Task 1.2 – Title – Digital Component [Yes/No] <i>Activity Description</i>		
Describe Expected Living Costs and Associated Expenses for the WP, Including External Consultancy, Research Contracts, and Material Purchase		
Deliverables:		
D1.1	–	Description
Title		
D1.2	–	Description
Title		

Work Package n. (es. 3)	Start Date: (es. M2)	End Date: (es. M9)
Work Package Title: [Titolo]		
Type: [Basic Research/Industrial Research/Experimental Development]		
Person-Months [Mesi/uomo]:		
Objectives: <i>List and briefly describe the objectives of the Work Package.</i>		
Task 1.1 – Title – Digital Component [Yes/No] <i>Activity Description</i>		
Task 1.2 – Title – Digital Component [Yes/No] <i>Activity Description</i>		
Describe Expected Living Costs and Associated Expenses for the WP, Including External Consultancy, Research Contracts, and Material Purchase		
Deliverables:		
D1.1 <i>Title</i>	–	<i>Description</i>
D1.2 <i>Title</i>	–	<i>Description</i>
